NIH Video Archive

Viewing relevant programs through the NIH video archives counts as refresher training. An e-mail to your supervisor stating the title and length of the video is sufficient to document you attendance. Keep a file of your training to show your Contracting Officer that you have met the training requirement.

The following videos have been determined to count toward the Project Officer Training requirement.

1. **Title:**   **Managing Extramural Clinical Trials - Who Does What, When and Why? (HHS Only)**

Date: Thursday, January 11, 2007, 8:30:00 AM

Category: HHS Only

Description: Administrative Strategies

An application for a clinical trial comes across your desk. Do you know your role in clinical trial stewardship at NIH? This forum will discuss core issues for program, review and grants management staff members in promoting safe and scientifically valid clinical trials. You will walk away with tips and tools for your role in this complex process.

6. Title: **DDM - Leveraging the Spotlight of Leadership**

Date: Thursday, February 08, 2007, 11:00:00 AM

Category: Special

Description: This seminar is one of many efforts at the NIH in striving for management excellence and is designed to bring outstanding speakers to the NIH to discuss leadership and administrative management topics. It will provide administrative and scientific communities with the opportunity to meet with each other to discuss and exchange ideas on the topics presented.

Jay Conger is the Henry Kravis Research Professor of Leadership Studies at Claremont McKenna College. He is a former professor of organizational behavior at London Business School and senior research scientist at the University of Southern California. Conger has written or co-written more than 90 articles and 11 books and has two new books in progress which focus on best practices in leadership and CEO leadership. His most recent book is Growing Your Company's Leaders: How Great Organizations Use Succession Management to Sustain Competitive Advantage

8. Title: **Crisis –or Opportunity? Tools for Change Management**

Date: April 27, 2006

Category:

Description: The NIH budget goes from fat to flat. CSR reorganizes the study sections in your field. And your new boss arrives next Monday...

Change happens, and NIH is always in the middle of a lot of it. Change can be chaotic and painful, or constructive and positive; it's usually all of these. But we can anticipate change in our workplace and seize the opportunities it presents. There are practical strategies to reduce the pain and increase the gain. Come learn from experts how to lead from the middle, and make the most of changes happening in your worklife.

9. Title: **Administrative Strategies: Project Management Tools For Teams (HHS-Only)**

Date: Tuesday, October 19, 2004, 8:30:00 AM

Category: HHS Only

Description: Staff Training In Extramural Programs
Project Management Tools for Teams

Time . . . ticking. Demands . . . increasing. Teams . . . multiplying. Doing more . . . with less. Managing many projects simultaneously is a routine challenge. More and more, NIH must achieve its goals through interdisciplinary teams. Team projects can be simple or complex, short or long, and no two are alike. Yet how can we enhance productivity and ensure success within workplace teams? Project management tools are available for creating conditions for effective teamwork, and adapting to the strengths and weaknesses of teams. This STEP Forum introduces skills for taking advantage of team dynamics. Learn how to manage your team projects rather than being managed by them. This training is recommended for ESA credit.

11. Title: **Who Ya Gonna Call? Workplace Networking Strategies and Skills (HHS-Only)**

Date: Tuesday, November 25, 2003, 8:30:00 AM

Category: <u>HHS Only</u>

Description: Well-developed personal connections are essential for efficient daily productivity and successful career development. Are you spending too much time on the web or digging through years of files to find the information you need? If you have an effective network across the NIH, the answer is easy - pick up the phone and call a colleague! What could have taken you hours, now takes minutes. Not only is a robust network of resources important for your current position, it also is useful if you are in a new position or considering a career change. This session will explore approaches for maximizing professional contacts and offer insight on establishing and maintaining beneficial networks of people and expertise resources.

This forum is intended for extramural staff at all levels.

Organizing Committee:
Chair: Sheryl Brining
Members: Anthony Carter, Cheryl Chick, Rebecca Claycamp, Mary Daley, and Carl Henn
